# SMILE! IT'S YOUR BIG DAY!

Michele King from Portstewart Dental offers advice on getting your smile wedding ready

**W**e offer a wide range of general and cosmetic dental treatments, and facial aesthetics to help create your perfect smile.

Every treatment is tailored to you - because every patient is individual.

Some of the most popular dental treatment for brides and grooms that we provide are listed below, however,

It's important to remember to make sure you give yourself plenty of time when planning your wedding smile and we can easily advise you on approximate timescales at a free consultation.

Some of the most popular dental treatment for brides and grooms we provide are:

Veneers

**Veneers** – these individual handcrafted facings are fitted to the front of your teeth and can last many years. They can be used to correct teeth that have gaps, are chipped, crooked or permanently stained.

Tooth whitening

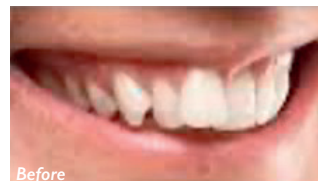

**Tooth Whitening** – this is our most popular treatment for the wedding party. Zoom Whitening takes less than two hours and can make your teeth up to eight shades whiter. It is a simple, painless procedure with lasting results. We also offer home whitening kits to use in the comfort of your own home. So, the choice is yours.

**White Fillings** – white mercury-free fillings that won't show when you smile.

**Crowns** – these are good if you don't want veneers. A cap is placed over the tooth to restore or improve the shape and size.

**Bonding** – this can improve the appearance of teeth that are chipped, stained, or cracked.

**Contouring** – this process levels uneven smile lines. Perfect for pointed canines or a small chip.

After

**Orthodontics** – crooked/overlapped/gapped teeth can now easily be straightened using cosmetic braces that have colourless brackets and a tooth-coloured wire.

**Implants** - Are you missing a tooth or teeth? Do you have a denture that is loose? Dental

Before

After

We have an extensive range of treatment options, including wrinkle reduction, dermal fillers, cheek augmentation, lip plump or contouring, tear trough treatments, and the renowned Dracula facials.

All our services are fully confidential and we will happily arrange a free, no obligation consultation for you or your partner.

Patient A said: "I didn't like my smile and was never photographed with teeth on show. I'm now very happy and don't mind my showing teeth in photos. Very impressed - all appointments were very professional with sympathetic and caring staff. Very satisfied. Thank you."
